Note: Covered employment; data excludes self-employed. Second quarter data.

Beginning in 2002, all employment, establishment, and wage data from the Virginia Employment Commission is being reported in the NAICS system as opposed to the SIC system. An effort to create a bridge to convert data from one system to the other is currently underway at the state level. Due to this change, historic data is not currently available. Establishment, employment, and wage data under the NAICS system is displayed on this table.
